DESCRIPTION

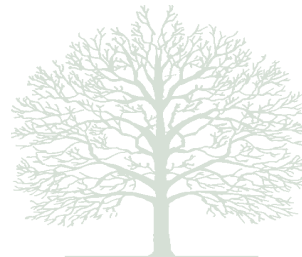

E.M. Branch & Associates, Inc. was founded in December 1988 by Brenda T. Thompson, Licensed Clinical Social Worker, with more than twenty-five years of clinical experience. The practice was established in order to provide culturally sensitive services to individuals, families and communities impacted by the injustices of racism. The program uses a strength-based approach in order to empower individuals and communities to overcome oppression. The practice believes in a systematic approach to address client concerns.

In October 2000, the practice was changed from an individual private practice, to a group practice in honor of Ms. Thompson's mother E. M. Branch. E.M. Branch dedicates her life to those who are less fortunate. Because of Ms. Branch's commitment to helping others several of her descendants pursued careers in the helping profession. We are proud to fulfill her life's mission of helping others.
